Comment: It's good to see that Texas & Louisiana are working together. I am on the Board of BassLife Associates and would strongly encourage ya'll to move towards a minimum length limit like Toledo Bend currently has. Even a 15inch minimum would serve it's purpose. It appears that most fisherman are not harvesting enough bass out of the lake and the growth rates are being stunted by 16-18in fish populations. I would also encourage something to be done with the SL on Cross Lake in Shreveport. This lake also needs a MLL instead of a slot.
